Symphony

Interpreting the beauty of nature in a wide variety of ways, combining **fabulous graphics** with a retro touch and other sophisticated designs with matching plains – the **Symphony** wallcovering collection captivates everyone.

Delicate flowers, lush leaves or imaginative plants. An unmistakable **jungle feeling** with palm trees and banana leaves, a **mysterious enchanted forest** or the idyll of a home garden. No matter which pattern you choose, these designs will make any room a **feel-good haven**.

The visual illusion of real brick walls, which are reproduced in an astonishingly realistic way, is also immediately impressive. Grass braids that radiate a **natural tranquillity** and ornate wooden constructions create a **warm and cosy atmosphere**. And for lovers of graphic patterns with a vintage feel, there's a great selection that will add a creative and **playful touch** to any room.

The wealth of solid-colour wallcoverings in this collection makes it possible to **harmoniously** combine all patterned wallcoverings with a matching solid colour. This allows each room to be individually designed and cleverly reflects the **personal style** of the residents.
